PROJECTS

Placement Feedback Form Analysis To Increase Placement Success Rate - (HTML, CSS, Bootstrap, JavaScript, Spring, MySQL, Chart.js)

- Analyzed student placement data to identify strengths and weaknesses in the educational system.
- Developed a feedback mechanism for HR professionals, supported by a secure database and website.
- Implemented frontend using HTML, CSS, Bootstrap, and JavaScript for a user-friendly interface.
- Utilized Spring for backend development to manage server connections for data storage and retrieval. Employed MySQL for secure and efficient database management.
- Visualized data using Chart.js, creating impactful bar graphs to enhance data presentation.
- Focused on data security and meaningful enhancements in the educational landscape.

ACTIVITIES

- Conducted a Community Survey in localhood to bring Awareness on Health and Hygiene.
